

# ARMOUR JACKET™ Hose Coating

## Performance you can count on

All Angus woven jacket products are available with our unique, innovative, abrasion resistant coating. ARMOUR JACKET completely encapsulates the fibers of our jacket, providing a long lasting, vibrant color shield against the rough treatment that fire hose is exposed to every day. ARMOUR JACKET displays extreme resistance to bacterial and mildew growth as well.

When subjected to the Mil-H-24606B Taber Abrader test, ARMOUR JACKET surpassed the minimum requirement by 6 times compared to other hose manufacturers. This coating is available on Angus Firepower II, Ultima, Ultima Lite, Premier, Angus D700, Angus S600, Angus S500, and Angus S300 woven fire hose.

ARMOUR JACKET is offered in six vibrant NFPA recommended colors; red, yellow, orange, blue, green and tan.
