

WHAT'S THE BEST GLOVE FOR ME?

This question is at the core of all that we do here at Best. Helping you find the answer is our job.

On every web page, you'll find a dedicated button enabling you to search for the best glove for you by the criteria important to you.

You can initiate a Search based on specific applications, hazards or chemicals. Your results will appear based on your criteria.

In addition, each glove is further categorized by performance in cut, puncture, wear, chemical permeation and price.

Use these criteria to further refine your search by simply clicking and re-ordering what's most important to you and your needs. Working with a specific chemical but need a puncture-resistant glove for the job? Simply search by that chemical and then re-order your results by gloves that perform the best in puncture-resistance. Need greater information and deeper testing results for chemical applications?

Simply click onto our Chemrest button and access the world's most comprehensive chemical reference database designed for hand protection. With more than 600 individual chemicals, over 100 chemical classes, and all organized by CAS#, Chemrest is the most thorough chemical permeation and testing glove reference database available.

We also gives you access to the latest information on our award-winning hand protection, direct links to our list of authorized distributors, search by zip code for your local Best sales representative and so much more. You can even download .PDFs of our sell sheets and flyers, technical data sheets as well as this catalog. We hope you find our new home your new home for identifying, evaluating and selecting the best glove for you and your job.
