## TETRAGLAS ${ }^{\circledR}$ TAPE

Manufactured of texturized fiberglass yarns, Tetraglas ${ }^{\circledR}$ Tape will withstand temperatures up to $1000^{\circ} \mathrm{F}$ in continuous service.
Tetraglas ${ }^{\circledR}$ Tape offers superior insulating properties as well as low chloride content.

Tetraglas ${ }^{\circledR}$ Tape w/PSA features a pressure sensitive adhesive backing that is intended to facilitate the installation of the tape when adhering the tape to the surface over which it is being applied. The tape is used around sheet metal flanges and around small doors. At elevated temperatures, there will be some loss of adhesive properties.
Tetraglas ${ }^{\circledR}$ Tape impregnated with PTFE Fluoropolymer Resin, offers the advantages of a non-asbestos material with higher temperature range and with excellent resistance to almost all solvents, caustics and acids.
Seals effectively at low bolt stresses. Service temperature up to $550^{\circ}$ F.
Provides excellent resistance to almost all solvents, caustics and acids.
Vermiculite Coated Tetraglas ${ }^{\circledR}$ Tape and Vermiculite Coated Tetraglas ${ }^{\circledR}$ Tape w/PSA are manufactured from texturized fiberglass yarns then coated with Vermiculite, a 100\% inorganic dispersion. Vermiculite coated Tetraglas ${ }^{\circledR}$ Tape will withstand temperatures up to $1500^{\circ} \mathrm{F}$ constant with excursions to $2000^{\circ} \mathrm{F}$. Also offers abrasion resistant stability.
This tape maintains the same characteristics as the Vermiculite Coated Tetraglas ${ }^{\circledR}$ Cloth. It is an excellent choice for pipe wrap or gasketing products.

- Special coatings of PTFE Impregnation and Vermiculite are available as well as heat treatment.
- Shrink wrapped for added protection.
- Available in Plain or Drop Warp Styles

## TETRAGLAS ${ }^{\circledR}$ TAPE

Applications include:

- steam tracer line wrapping
- hot pipe protection
- exhaust manifold insulation
- strip curtains for oven doors
- tadpole tapes
- gasketing

VERMICULITE COATED TETRAGLAS ${ }^{\circledR}$ TAPE W/PSA
