TTMA Series Flange Adapters

The TTMA pattern bolts quickly and easily to standard 4" TTMA flanges and provides a 3" or 4" male or female NPT thread. Adapter provides a simple and easy way to convert threaded components to a standard TTMA flange configuration. Made of lightweight, solid cast aluminum that is more durable than welded fabrications. Design improves flow through adapter even on the 3" reducer. Compact size reduces the overall space needed to install the adapter.

- Available in 3" or 4" male or female NPT
- Strong and lightweight
- Solid one-piece design
