

Tank Truck Fittings

Tank Truck Flanged Sight Flow Indicators

- Replaces the acrylic sight glass commonly found on tank trucks
- Allows for visual identification of the fuel grade prior to opening the valve
- Works with tank truck flanged butterfly valves found on gasoline trucks
- Low cost sight glass tube can be replaced easily
- Rugged cast aluminum housing is more durable than acrylic sight glass

Description	Part #	Price / E
4" TTMA pattern flanged short sight flow indicator	5200-SFI *	\$153.00
3" TTMA pattern flanged short sight flow indicator	5200-SFI-3	140.00
Replacement plexiglass	390844	51.50
Replacement Buna-N O-ring	O249BU	4.35

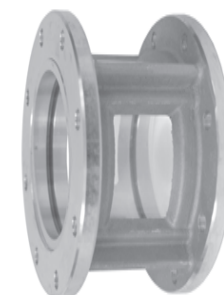

* Does not ship with gasket

- Allows for visual identification of the fuel grade prior to opening the valve
- Works with tank truck flanged butterfly valves found on gasoline trucks
- 4-3/8" flow
- Larger I.D. allows tank truck flanged butterfly valves to connect to either end of the 400-SFI-AL
- Rated to **150 PSI**

Description	Part #	Price / E	Pkg Qty
4" sight flow indicator	400-SFI-AL	\$193.30	5
Replacement plexiglass	4SFIPSG	74.40	1
Replacement Buna-N O-ring	O249BU	4.35	2
Viton® plexiglass gasket	4SFI-G-VI	44.10	2

- Allows for visual identification of the fuel grade prior to opening the valve
- 4" flow

Description	Part #	Price / E	Pkg Qty
4" sight flow indicator	4-1460-AL	\$166.70	10
Replacement plexiglass	4PSG	79.40	10
Replacement Buna-N O-ring	O246BU	4.10	10

For tank truck flange gaskets, see page 50.

For dimensional information on tank truck flange drilling, see page 526.

Optional Pkg./Box Quantity Shown

Note: Due to the proprietary blending of petroleum products, Dixon recommends that the thermoplastic tubing and the Viton® gaskets be immersion tested in the product to be handled to insure compatibility.
