

Trademarks

Delrin[®], Kevlar[®], Teflon[®] and Zytel[®] are registered trademarks of E.I. duPont Nemours and Company.

Kalrez[®] and Viton[®] are registered trademarks of DuPont Dow Elastomers.

All other trademarks appearing in Dixon's Illustrated Price List are the property of their respective owners.

Corrosion Resistance of Coupling Material

Caution

The following data has been compiled from generally available sources and should not be relied upon without consulting and following the specific recommendations of the manufacturer regarding particular coupling materials.

Ratings

Metal	Non-Metal	Gasket/Seal Material
1 - Excellent 2 - Good 3 - Fair X - Not Recommended - - Contact Factory	A - Acceptable X - Not Recommended - - Contact Factory	T - Teflon [®] V - Viton [®] E - EPDM, EPR N - Neoprene B - Buna N

- Note: (1) Ratings given are based at 70°F. Chemical compatibility varies greatly with temperature. For applications at temperatures other than 70°F, contact the Factory for recommendations.
- (2) Gasket / seal materials are not necessarily listed in order of preference.
- (3) Chemical resistance of a material does not necessarily indicate the suitability of a fitting in a given application due to variables such as improper clamp and coupling application, special hose construction, gasket material, etc.

Special caution should be taken when handling hazardous materials.
