TWO PART CLAMPS

This unique two part clamp is adaptable to a variety of latching or locking applications where repeated opening and closing is necessary. Holes in the end of each part allow for permanent installation of clamp with rivets or screws.

Ideal 58 Series / Tridon 502 Series

Ideal 62 Series / Tridon 503 Series

Measurements in illustrations are in inches (millimeters)

Screw: 5/16" hex-head. Plated carbon steel. Band and housing: 1/2" wide stainless steel.

Also available in all zinc-plated, carbon steel. Contact Ideal for details.

NYLON CABLE TIES

One piece 6/6 nylon for tying, bundling and positioning in industrial, PHAC, automotive and marine applications. Corrosion and fungus-resistant. Available in diameters from 1/16" to 13".

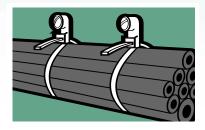

Ideal 665 Series (Tridon N/A) Self-locking.

- · Install easily with or without tools
- · Corrosion and fungus resistant
- Tapered tips slip easily under and around cables
- Flexible nylon conforms readily to most shapes
- · Uniform serrations along the tie permit easy "pull-through" right down to the bundle - ready for final tensioning and cut off for a neat, tight harness

Ideal 666 Series (Tridon N/A)

Self-locking with mounting heads for quick, simple cable mounting.

- Once ties are installed, simply pass a screw, bolt or rivet through mounting hole to secure harness in place
- Bundling and mounting is done with one unit
