

HI-VIS SAFETY VESTS

ANSI/ISEA 107-2004 Standards

CLASS III VESTS

MCR Safety, as a member of the International Safety Equipment Association (ISEA), is committed to providing workers the very best in high-visibility apparel. The ANSI/ISEA 107-2004 establishes a set of performance criteria for high-visibility apparel.

Class 3 Protection Work Conditions

For occupational activities where risk levels exceed those of a Class 2, such as where workers are exposed to significantly higher vehicle speeds and/or reduced sight-distances while the worker and vehicle operator have high task loads, clearly placing the worker in danger. Class 3 could also be used in applications where the wearer must be conspicuous through the full range of body motions at a minimum of 1280 feet (390 Meters) and must be identifiable as a person.

Class 3 Industry Applications:

- emergency response personnel
- survey crews
- roadway construction personnel
- flagging crews
- utility workers

Should you need assistance in determining the most appropriate garment for any application, please contact MCR Safety (www.mcrcsafety.com) or ISEA (www.safetysafetyequipment.org).

CL3ML

Class 3, 100% Polyester Mesh Safety Vest Velcro Front Closure, 2 Pockets
2" Silver Stripes
