

- **Sales Tip:** Borders are a 100% nitrile rubber compound offering the same resistance to oils/chemicals as the mat – competitor's products use vinyl borders which can degrade.
- **Where to Specify:** All heavy Industrial environments and work cells that require worker protection from fatigue, spillage of liquids, heavy cart traffic.

- Resilient rubber compound withstands industrial cutting oils and chemicals.
- Large hole configuration facilitates drainage and resists clogging while mini-diamond studs on top surface minimize slippage.
- Colored beveled borders are permanently affixed to the mat (unlike competitors' snap-ins that come loose) and are available on 3 or 4 sides.
- Overall mat thickness is 7/8 inch.
