

OETIKER International

OETIKER Product Lines and Companies

Clamps and Rings

Permanent, tight connection will only be released if required.

For all clamping and pressure ranges, hard or soft materials, hoses, cables or ropes. Made from tube or band, stepless, self-tensioning or reusable. Also in rust and acid-resistant materials. Simple and straightforward installation.

Couplings

Swing Couplings SC – Full flow. Safely swing to connect. Connects easily and quickly with no force required and no loss of pressure in the system.

Quick Action Couplings SV* – Two-stage uncoupling.

Non-interchangeable and heavy duty ranges also available.

Quick Connectors is a system to connect supply lines simply, fast and safe.

Hinged Steel Belts and Conveyor Chains*

Hinged Steel Belts in a wide range of pitches and widths. Flat, dished, perforated, slotted – customer-specific production.

Conveyor Chains and sprockets for a wide variety of applications in industry and mechanical engineering. There are also rust, acid and heat-resistant versions.

Formed and Stamped Parts*

Holders, rings, special clamps, and many other fastening components for a wide variety of industries. Manufactured using multi-stage tools in presses with up to 4000 kN load capacity.

Sandblasting and Surface Technique*

Sandblasting Technique – Sandblasting equipment, jet rooms and cubicles, recovery and filter plants, safety equipment.

ROTOL Surface Technique – Deburring and polishing machines, design and construction of plants for rational surface treatment and finishing.

Special Products*

Research and development of products as well as solutions for them to be integrated into assembly procedures internally or on customer's request repeatedly lead to innovative special products.

* Not available in all countries

The addresses of all OETIKER companies and agencies are included on our website.
