

## Air Brake Hose Ends

### Advantages

Easy to assemble and disassemble. Extruded from CA360 or CA345 brass. Readily available in broad selection of configurations and sizes.

### Specifications

Air brake hose ends will meet D.O.T. FMVSS571.106 standards when used with SAE J1402 Air brake hose.

### Applications

Air brake hose connections.

### Working pressure ranges

Up to 125 PSI

### Temperature ranges

-40°F to +120°F

### Order

By part number. Nuts, sleeves, bodies and springs may be ordered as separate items by their catalog number.

### Nomenclature

Part numbers are constructed from symbols that identify the style and size of the fitting. The first series of numbers and letters identifies the style and type fitting. The second series of numbers describes the size.

### Example:

### Sizes

Hose sizes are determined by the number of sixteenths of an inch in the hose I.D.

### Special fittings

Fitting configuration and/or sizes other than those shown in the catalog can be furnished. It is suggested that a print or sketch be submitted with the inquiry.

### Pricing

Only items priced in current supplementary price list PL3501 are carried in stock. Price and delivery for non-stock items furnished on request for specified quantity.
