

FIELD ATTACHABLE FITTINGS

PARKER/PAGE engineers design and manufacture Field Attachable Fittings to accommodate our Industrial Smoothbore PTFE S30 and S30B (.030" wall) hose styles. Expensive assembly equipment is not required to build a custom hose assembly with PARKER/PAGE Field Attachable Fittings. They can be assembled with common bench tools, for example, a clamping vise and an adjustable wrench. This convenience allows lower volume users and those working in remote locations both the accessibility and availability to fabricate Industrial Smoothbore PTFE hose assemblies. Most commonly used industrial configurations, including Male Pipe (NPT) and Female JIC (SAE) 37° swivel fittings, are available in 300 Series Stainless Steel and Carbon Steel.
