

PART NO.	DESCRIPTION
----------	-------------

Braze Flux

Black braze flux can be used for brazing either steel or stainless steel components. When applied liberally this flux helps the flow of the silver braze alloy and prevents oxidation.

FLUX-1-BPD	Black Flux 1 lb.
FLUX-1/2-BPD	Black Flux 1/2 lb.

Post Braze Cleaner

Used to clean the assembly after brazing. Once the silver braze alloy has solidified, immediately immerse into the braze cleaner solution. The cleaner combined with the sudden change in temperature removes the flux from the assembly. Braze cleaner does not provide corrosion protection.

Available in sizes 2 1/2 lb. and 5 lb. jars. When ordering simply denote quantity after Braze Cleaner.

BRAZE-2.5-BPD	Braze Cleaner 2 1/2 lb.
BRAZE-5-BPD	Braze Cleaner 5 lb.
